Linux File Managment

1)

```
sudo mkdir -p ./Avengers/{"Tony Stark"/Enemies, "Steve Rogers/Enemies,
"Natasha Romanoff"/Enemies} && sudo touch ./Avengers/{"Tony Stark"/
{Powers.txt, Enemies/Thanos.txt}, "Steve Rogers"/{Powers.txt, Enemies/
"Red Skull.txt"}, "Natasha Romanoff"/Enemies/"Winter Soldier.txt"}
```

2) sudo su to change to root and then (maybe not needed, but)
echo "Professor Xavier is on his way" >./"Natasha Romanoff"/ProjectX.txt

3) Copying and moving:

```
sudo cp ./Avengers/Enemies/"Natasha Romanoff"/Enemies/"Winter Soldier.txt"
    ./Avengers/"Steve Rogers"/Enemies/"Winter Soldier.txt"

sudo mkdir -p ./Avengers/"Peter Parker"/Enemies &&
    sudo mv  ./Avengers/"Tony Stark"/Enemies/Thanos.txt
    ./Avengers/"Peter Parker"/Enemies
```
